About the photographer

- I am married and have four grown up children. Photography began as a hobby in my early teens and I have had many professional assignments, particularly at weddings, since 1982. Apart from weddings, I am the Photographer for many schools around Medway. Clients for numerous assignments include the BBC, Classic fm, Channel 4, Faber Music and Hillreed Homes.

Technical information

- I use a Canon EOS 5D Mk II. This is a digital SLR camera with an image sensor chip of 21 million pixels capable of producing sharp images up to the very largest sizes.
- A Canon EOS 7D (a digital SLR camera with 18 million pixels) is used as a back-up.
- A fixed 50mm f1.4 lens and 4 zoom lenses (all Canon) covering focal lengths from 17mm to 400mm enable a wide range of shots from close up to wide angle.
- A Canon Speedlite 580EX flash unit is often used even outdoors (if the subject is within range) for softening shadows, filling in light and providing attractive catch-lights in the subject's eyes.
- For indoor activities requiring additional lighting I use Bowens studio lights (three Gemini Esprit 750 flash heads) and a series of reflectors, diffusers and brollies.
- Images are processed and enhanced on a high spec PC using Corel Paint Shop Pro X2 software. This highly acclaimed software matches Adobe PhotoShop which, until recently, was the industry benchmark.
- The digital images are transferred electronically to a professional laboratory in North London where they are printed on Fuji photographic paper with a fade resistance rating of 150 years.
- Copies of all the images (original, digitally enhanced and the proofs) are stored on two separate hard drives (one internal and one external) and written to CD to minimise any risk of losing them.

Conditions

- The photography services are only considered to be booked on payment of the deposit. Deposits are not returnable.
- The balance of the payment (the agreed price less the deposit paid) will be due at or before the photo session.
- All rights for reproduction of photographs remain entirely with the photographer. The images will always be legally owned by the photographer. The customer may purchase and own prints from the photographer but these may not be scanned, photographed or copied in any way.
- CD images may be used for personal usage but may not be given, sold or used for profit in any way without seeking copyright permission from the Photographer.
- The photographer may use any images he has taken for his own promotional use.
- The photographer may place any images on his internet web site for the purpose of making them available for viewing by family and friends and enabling them to place orders.
- In the very unlikely event of the pictures being lost, destroyed or otherwise incapable of being provided there will be a full refund of any monies paid. The customer agrees to this being the full extent of any claim against the photographer.
- Reprint and enlargement prices quoted at the time of booking will be honoured for any orders placed up to 1 year after the session. After that the prices current at that time will apply.
